AN EPITOME OF THE EVENTS OCCURRING EACH DAY.

mandent of the Times, telegraphing on Monday, says.

Senor Sagasta went to the palace today and tendered his resignation and that of the Cabinet. It is said that he advised the Queen Regent to appoint a new Cabinet largely consisting of the military element, which would not necessarily mean the adoption of a war-like policy, but probably the reverse.

"It is generally expected that the resignation will be accepted, but the result may possibly be merely a partial reconstruction of the Cabinet. The Ministers are now in council, and Senor Sagasta has doubtless communicated to them an account of his audience with the Queen Regent."

Washington, July 12.—Expectation is

gent."

Washington, July 12.—Expectation is general today that Santiago will be ours very soon. The main source of apprehension today was that the Spaniards may have succeeded to a considerable degree in evacuating the town before the American lines of investment were completed, so that when the Americans entered it would be found to be merely an empty husk with, perhaps, nothing more than a desperate guard of Spaniards left to protect and conceal the retreat of the main body of troops.

There are several indications of such a move, which is supposed to have been in progress for the past three or four days. General Shafter himself reported under date of Sunday, that the Spaniards had evacuated a small town on the west side of the bay, one of the suburbs of Santiago, while the Associated Press yesterday referred to the departure of a body of Spanish soldiers from Santiago towards Holguin.

Washington, July 13.—Secretary Alger has received the following dispatch from General Miles:
Playa del Este, July 13.—Secretary of War. At a meeting between the lines at which Gen. Shafter and Gen. Wheeler and the Spanish general. Toral, were present, the latter claims that he is unable to act without authority of his government, but has received authority to withdraw and surrender harbor, ports, munitions of war and eastern portion of Cuba. He urgently requests until tomorrow noon to receive answer from his government, regarding offer of our government to send his forces to Spain, which was granted. (Signed)

MILES, Maj. Gen. Com.

Washington, July 13.—The war departmen has given out the following from General Shafter:
Headquarters, near Santiago, July 13.—Adjutant General, Washington: Your telegram saying no modification of orders allowed, just received. Have had an interview of an hour and a half with Gen. Toral and have extended truce until noon tomorrow; told him-that his surrender only will be considered, that he was without hope of escape and had no right to continue the the fight. I think it made a strong impression on him and hope for his surrender. If he refuses I will open fire on him at 12 noon tomorrow with every gun I have, and will have the assistance of the navy, who are ready to bombard with 13-inch shells. (Signed) Shafter,

Washington, July 13.—The administra-tion is now face to face with the problem of yellow fever. Fourteen suspicious fe-ver cases have broken out among employ-ees of the quartermaster's department near Santiago. The men have been iso-lated and confidence is expressed in the ability of the doctors to stamp out the disease, which is believed to be yellow fever.

A conference was held this morning at white house for the purpose of arranging plans to send yellow fever experts to Santiago. A dispatch was sent Gen. Miles this morning to hasten the attack on the town and withdraw the troops to healthier localities in the Hills.

NEWS FROM MANILA.

Manila, July 7, via Hong Kong, July 13

The insurgents on July 6th reported that the German gun boat Irene in Subig bay refused to permit them to attack the Spaniards at Grand island. Dewey Spaniards at Grand island. Dewey promptly dispatched the cruisers Raleigh and Concord to investigate. On entering the bay the Raleigh opened fire on the forts, whereupon the German ships slipped her cable and steamed out by the other channel. In response to the fire of the Americans the Spaniards surrendered everything, the prisioners numbering 500. The Irene explains that she acted in the cause of humanity and offered to hand over the refugees on board, but Dewey refused to accept them.

Our baby has been continually troubled with colic and cholera infantum since his birth, and all that we could do for him did not seem to give more than temporary relief until we tried Chamberlain's Colic, Cholera and Diarrhoea Remedy. Since giving that remedy he has not been troubled. We want to give you this testimonial as an evidence of our gratitude, not that you need it to advertise your mentorious remedy. G. M.
